

Our Mission

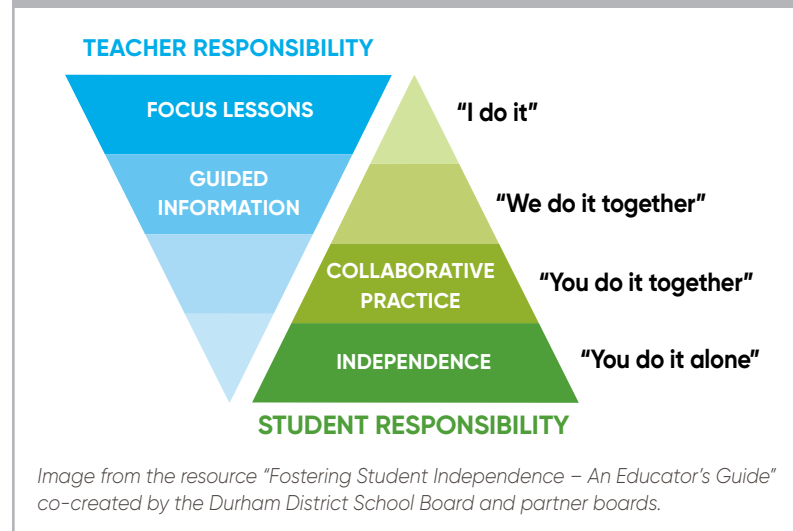

The Durham District School Board is committed to fostering success and independence for each student by providing a range of pathways, programs, opportunities and services. Students with special education strengths and needs are supported in inclusive environments that enable them to develop to their own full potential.

For more information, please contact the Special Education Resource Teacher (SERT) at your school.

The Durham DSB core priorities are all reflected in Inclusive programming which promotes student growth and achievement. Student independence is fostered through a gradual release of responsibility model. This framework provides the modelling and support needed to set a student on a path to their own level of independence. Independence allows for a growth of a student's voice which includes knowing who they are, what they want or need and making positive choices that affect their life.

SPECIAL EDUCATION IN THE DURHAM DISTRICT SCHOOL BOARD

MANY PATHS TO
Success

How do we **serve** our students?

Students' needs can be met through a variety of programs, placements and class types within the DDSB. We strive to help every student meet their full potential, while fostering the highest level of independence possible for each student. We work with parents/guardians and board staff to determine the placement that best meets the student's needs, whether that is in a regular classroom, or for some students, in a special education class.

We place a strong emphasis on the inclusion of our students with special needs, providing meaningful, individualized integration opportunities for students accessing special education programs.

Regular Class Placement

PLACEMENT DESCRIPTION

The regular class is considered the most inclusive of placements. The majority of students with special education needs access programming in a regular classroom. For most students, a classroom teacher, with support of the school's Special Education Resource Teacher and board staff, is able to provide individualized programming that allows the student to meet with success in a classroom environment with their peers.

The Board endeavours to meet the needs of all students in the most enabling environment. The Board's practice, consistent with the Ministry direction is that, wherever possible, special learning needs are addressed within the home school and regular class placement.

Special Education Class Placements

Some students require a higher level of support, more intensive intervention and specialized services in order to meet with success. For those students, parents and guardians may be offered an opportunity to explore a Special Education Class placement for their child. In the DDSB we provide eight class types that meet the needs of students with a specific learning profile and that have clearly defined outcomes of student success.
